Digital Television (DTV) is an advanced broadcasting technology that has transformed the television viewing experience. DTV enables broadcasters to offer television with better picture and sound quality, and multiple channels of programming. Since June 13, 2009, full-power television stations nationwide have been required to broadcast exclusively in a digital format.

Demographic transition (DT) is the transition from high birth and death rates to lower birth and death rates as a country or region develops from a pre-industrial to an industrialized economic system. The theory was proposed in 1929 by the American demographer Warren Thompson, who observed changes, or transitions, in birth and death rates in industrialized societies over the previous 200 years.

The digital television transition, also called the digital switchover, the analog switch-off (ASO), or the analog shutdown, is the process in which older analog television broadcasting is converted to and replaced by digital television. This primarily involves the conversion of analog terrestrial television to digital terrestrial. However, it also involves analog cable conversion to digital ...

Transition planning is a process used to assist your son or daughter with a disability in moving from the school into adult life. It is a cooperative effort between the school, the student, the family and community agencies.

Transition Planning - Special Education - Wayne RESA

Gate-induced massive and reversible phase transition is demonstrated in VO 2 channels using solid-state proton electrolytes. Applying gate bias effectively injects large numbers of H⁺ ions without creating oxygen deficiencies and causes a two-step insulator-to-metal-to-insulator phase transition and a hydrogen-defect-induced chemical expansion at room temperature.
