Microsoft codenames are given by Microsoft to products it has in development, before these products are given the names by which they appear on store shelves. Many of these products (new versions of Windows in particular) are of major significance to the IT community, and so the terms are often widely used in discussions prior to the official release. . Microsoft usually does not announce a ...

Semantic gradients are a way to broaden and deepen students' understanding of related words. Students consider a continuum of words by order of degree. Semantic gradients often begin with antonyms, or opposites, at each end of the continuum. This strategy helps students distinguish between shades of meaning. By enhancing their vocabulary, students can be more precise and
