History. The field of information ethics has a relatively short but progressive history having been recognized in the United States for nearly 20 years. The origins of the field are in librarianship though it has now expanded to the consideration of ethical issues in other domains including computer science, the internet, media, journalism, management information systems, and business.

Gay's theological utilitarianism was developed and popularized by William Paley. It has been claimed that Paley was not a very original thinker and that the philosophical part of his treatise on ethics is "an assemblage of ideas developed by others and is presented to be learned by students rather than debated by colleagues."

Quotes [] Quotations from Aristotle are often cited by Bekker numbers, which are keyed to the original Greek and therefore independent of the translation used. In this lemma quotes are arranged by Bekker numbers (as far as possible). My lectures are published and not published; they will be intelligible to those who heard them, and to none beside.
