Intercultural communication is a discipline that studies communication across different cultures and social groups, or how culture affects communication. It is used to describe the wide range of communication processes and problems that naturally appear within an organization or social context made up of individuals from different religious, social, ethnic, and educational backgrounds.

Chapter 4 Nonverbal Communication. When we think about communication, we most often focus on how we exchange information using words. While verbal communication is important, humans relied on nonverbal communication for thousands of years before we developed the capability to communicate with words.
